STORY IN MOUNT CASE DENIED

"Campus Lies," Declares Mother of Dead Student

REFUTES HINTS OF SUICIDE

Claims President Scott Tried to Shield School

CHICAGO — (United Press) — Mrs. J. L. Mount, frail mother of Leighton Mount, today dramatically refuted hints that her son committed suicide and declared she will fight to bring his slayers to justice. She branded parts of the testimony of President Walter Dill Scott of Northwestern University before the grand jury as "campus lies."

In denying Scott's testimony that she expressed fear to him that Leighton ran away or took his own life, Mrs. Mount accused Scott of inducing her to "keep quiet about developments in the case to protect the school."

My boy was killed by hazers. He died fighting. Now I am going to fight. I am thru protecting Northwestern, the mother said.

Mrs. Mount has been near collapse since the skeleton identified as that of her son, was found in a Lake Michigan pier, where, the Mounts charge, it was placed by hazers some time following the 1921 class rush. She nervously wept as she read Scott's testimony.

The mother said that soon after Leighton's disappearance President Scott called her up and told her he had expelled 15 students, but asked her to keep this quiet so they could enter other institutions. They told me they would return, that's why I kept quiet. Now I'm thru keeping quiet. I demand justice," she declared.

She immediately held a long conference with John S. Barbaro, assistant state's attorney and said she had additional information in the case before him.

Assisting Mrs. Mount in her fight was Miss Doris Fuchs, the youth's sweetheart.

"I have abandoned the theory I first held that Leighton killed himself and I am confident now he was killed by hazers," she told the grand jury.

The grand jury resumed probe of the case today, by narrowing its questioning down to a few persons who the state's officials believe told the most important information.

Michael Hughes, chief of detectives, at the head of an "expert commission" visited the pier today and returned an opinion that the position of Mount's skeleton indicated the body was placed there by others.

A commission of physicians will examine the skeleton for a trace of chemicals, said to have been used for keeping it from being noticed in a hiding place.

BODIES REMAIN IN FLAMING WELL

Recovery from Texas Oil Gusher Prevented by Heat

CORPUS, Texas — (Associated Press) — The flaming oil well, which at least fifteen lives when a spark first gushing out two days ago, should be controlled soon, according to J. K. Hughes of the department company hearing his report.

The gusher meanwhile is being kept under a constant flow of gas and is emitting a snakelike trail of flame plainly visible for miles. Oil from the burning well is spraying a four acre area. It is pointed out as a peculiar characteristic of the oil field, that many men often work together and never know names.

Short, working with the crew for weeks before the disaster, remarked that, excepting rich-ones and first names, no oil field worker knows his comrades names to care what their names are.

From twenty boilers will be used today in an effort to quench the flaming well, the heat from which has prevented recovery of several bodies.

WAGES RAISED BY 4 RAILROADS

Increases Are Granted to Shopmen and Clerks

CHICAGO — (Associated Press) — Indications of a concerted move among certain classes of railroad employees for increases in wages are seen in the cases already filed before the United States railroad labor board and reports of negotiations pending with various carriers.

Four carriers granted increases yesterday, reports stated, embraced shopmen on the Nashville, Chattanooga and St. Louis railway, shop clerks and clerks of the Pennsylvania railroad system, maintenance of way men on the Great Northern railway and maintenance of way men on the Chicago and Alton railroad.

The increase to shopmen on the Nashville, Chattanooga and St. Louis railway was two and three cents an hour, affecting about 2,000 men.

While the Pennsylvania system increases for its clerks and shop crafts, announced as three to seven and one half per cent, became known in Trenton, N. J., it was understood to apply to those groups over the entire system, retroactive to May 1.

Ten thousand maintenance of way men on the Great Northern railroad received increases ranging from \$5.64 to \$10 a month, effective May 15 as a result of negotiations. Increases for maintenance of way men on the Chicago and Alton railroad ranged from \$3.40 to \$10 a month.

From Cleveland came the reports that the rail shopmen will demand increases within a short time from all roads on which the shop craft strike of last July has been settled.

New York reports stated the union shopmen plan to present wage demands totaling about \$30,000,000 annually to managements of the Pittsburgh and Lake Erie, Baltimore and Ohio and New York Central railroads.

Presentation of wage demands first to carriers is specified by the transportation act which provides that in case of inability of the union representatives and management to agree, the disputes shall be submitted to the labor board for arbitration.

OBTAINING COFFIN UNDER FALSE PRETENSES CHARGED

MARYSVILLE — Mrs. Lily Roberts was under arrest here today, charged with obtaining property under false pretenses for having obtained a coffin and undertaking services for her late husband, D. P. Roberts. It was charged that Mrs. Roberts said there was enough money in her husband's estate to defray funeral expenses. Later, it was charged, this proved untrue.

COP KIDNAPED BY PRISONER

Police Chief Leads Hunt for Officer at Cleveland

CLEVELAND — (Associated Press) — A police "shotgun squad" of four flying squadrons, ten motorcycle policemen, a machine load of detectives and Chief of Police Griffin, with a corps of picked officers, were ransacking East End streets and patrolling country roads outside the city limits today for a trace of Patrolman Dennis Griffin, of the Colerain station, who is believed to have been overpowered and kidnaped by a prisoner who he was taking to jail early today.

Griffin was sent to a garage early this morning to relieve Patrolman Hughes who had spent the night at the garage waiting to arrest a man suspected of being a member of a gang that staged two early morning holdups that netted \$3,200 in jewelry and money and was also suspected of stealing an automobile.

Just as Griffin arrived, the man they wanted drove up, according to Hughes, and they placed him under arrest. Griffin started for the police station with the prisoner in the car, the suspect had been driven, Hughes following in another stolen car he had recovered at the garage. A short distance from the station a fire on the car Hughes was driving blew out and Griffin and his prisoner went on, Hughes telephoning the station Griffin would be in with his prisoner soon. An hour later when Griffin failed to reach the station search was begun and up to noon no trace of Griffin, his prisoner or the car had been found.

CRABBE TO DECIDE IF TAX VOTE IS NECESSARY

COLUMBUS, Ohio — Upon an opinion of Attorney General Crabbe by the state tax commission, may depend whether or not the Taft taxation act submitted to a referendum this fall.

Crabbe was asked by the commission to rule as to whether the Taft act became effective as a law when it was filed with the secretary of state after being enacted by the legislature over Donahay's veto.

If the attorney general rules that the act became effective at once, it would mean it is not subject to referendum, unless the courts should decide otherwise.

Executive committee of the state organization of real estate boards, who opposed the Taft bill, meets here May 21 to decide whether they will conduct a campaign for a referendum on the measure.

ATHENS, Ohio — Athens-co officers are enjoying pleasant tours over the country. Sheriff Pete McKinley is on his way to California to bring back Mason Lewis, awarded a Carnegie medal for bravery during the 1907 flood, but wanted here now for non-support. Deputy Sheriff J. M. Cady has just returned from Wyoming with another prisoner wanted on a similar charge.

CHINA WARNED BY U. S. MINISTER

Death of Captive Means Serious Consequences, Pekin Told

BANDITS THREATEN TO KILL

Distress Message Sent Out by Kidnaped American

WASHINGTON — (United Press) — American Minister Schurman at Shanghai has warned Chinese officials that the death of a foreigner among the prisoners of the Shanghai bandits will mean that China will face serious international complications, the state department announced today.

The Pekin government and high Chinese authorities all believe release of the Americans and other foreigners may be expected at any time, the department was advised and Schurman had been told after a settlement of the present incident the Chinese government will consider a general campaign for extermination of bandits.

PEKIN — (United Press) — The diplomatic corps delivered an ultimatum to China today demanding that the Chinese government obtain release of all foreign prisoners held by bandits in the Shanghai hills by midnight tonight, Pekin time. Otherwise heavy progressive indemnity will be imposed.

(BY RAY G. MARSHALL)

TEIN TSIN — (United Press) — "For God's sake, take away the troops! They threaten to kill us all!"

This message of despair came this afternoon from J. B. Powell, American newspaper man, captive with other foreigners in the camp of Shanghai bandits who wrecked and looted the Shanghai-express Sunday and carried off its foreign passengers.

The cry from the hills to which the prisoners, now being pressed by government troops, have withdrawn, caused consternation here. Grave fears are felt for the safety of the undetermined number of foreigners still held.

ANGER STIRRED

The despairing message from Powell, which was sent from the bandit camp today stirred growing anger among foreigners against what are felt to be insufficient measures for protection and release of the captives, now believed to be in the hands of the bandits.

Before leaving Pekin, I learned of plans formulated by Chinese business men to present apologies and offer amends to the foreign legations today.

Twelve prominent business men of China were to go into the hills and offer themselves as hostages for release of the foreign prisoners, according to the plan.

The "sorrow of the Chinese people over the outrage" was to be expressed in person at legation by a delegation of three, including the president of the United Chamber of Commerce of China.

The legation was to be informed that a million dollars was ready for ransom if necessary.

STRONGHOLD DESCRIBED

PEKING — (Associated Press) — At present hopes of obtaining freedom for the captives held by the Shanghai bandits for ransom seem to be in the efforts of Roy Anderson, an American of long experience in Chinese political affairs, and a personal confidant of several important military leaders.

He has announced he will visit the bandits in their stronghold at Paotoku and attempt to negotiate with them. He was one of the first on the scene after the holdup of the Shanghai-Peking Express and since has been counseling and cooperating with the American, British and French consuls of Linching.

Paotoku, the bandits' stronghold, is southwest of Yihsein, Shantung province, and forty miles west of the railroad. It is described as a large plateau, approachable by only one narrow pass. The outlaws are reported to have looked upon the retreat as a ridiculous and to have stored large quantities of provisions there. They are said to be short of water, however, and are forced to make frequent sorties for it.

MEN FLIRTS HAD BEST BEWARE

Single MEN USUALLY ASSUME A POSE WHILE TALKING TO A STRANGE GIRL—

WHILE MARRIED MEN STAND ON ONE FOOT OR REST AN ELBOW ON A COUNTER OR TABLE—

Girls Organize Club to Hit Mashers. Particularly the "Lonesome Papas"

EVANSVILLE, Ind. — (Special) Sweet papa, sweet papa, you'd better look out, the girls of this town have your mark. They say you're a pest and'll hand you a clout, if your bite becomes worse than your bark!

They've banded together and formed a new club, with Rose Kibby as its chief, and woo to be flit, the vamp and the dub, for him will be nothing but grief.

"The single ones are had enough," sighs Rose, explaining the plot, "but the married men with all their bluff—say, will we stand for that—we will NOT!"

"And it isn't as hard to spot them, as some of you folk may think. The charts show they prepared the story of each, now read 'em over and blink."

WILL STOP FLIRTING

"Yes," says Miss Kibby earnestly, confirming reports that she's organized an Anti-Flirting Club, "girls of this town are bothered considerably by male vamps, and we intend to put an end to it."

"It's time something was being done to protect the girls from these pests, and we intend to make life miserable for them."

Attacks launched by the club are to be aimed especially against "lonesome papas," she explains.

"How can we tell those who are married from the single ones? That's easy."

HOW TO TELL THEM

"You see, an unmarried man keeps silent on the subject of marriage. A married one will quickly deny he's married even before anyone asks him about it."

"Single men assume a pose when talking, a in movies. Married ones, with their conscious hitting on one cylinder, only use one foot to stand on, and lean an elbow on a counter or table."

"Clothes of a married man usually are neat. But they keep up with the styles and there's no difference in the cut of the suit. Also, the buttons are always properly sewed on married men's clothes."

"But the hair! It gives them away. Single hair, parted in the middle, heavily always, indicates youthful bachelorhood."

"We don't want the masher around, and especially the married one. He ought to be home with his wife!"

TWO PARDONED BY GOV. DONAHEY

One Imprisoned for Holdup With Tooth Brush Freed

COLUMBUS — (Associated Press) — Governor Donahay today pardoned a man who has been serving a 10 year sentence in the penitentiary for holding up a man with a tooth brush, while intoxicated. Clemency was also awarded a lifetime convicted of burglarizing an inhabited dwelling while intoxicated.

Ben E. King of Zanesville is the prisoner who entered the institution by way of the tooth brush. A would war veteran, he is the sole support of an aged mother at Cleveland and the conditions of his pardon are that he support and care for the mother, abstain from intoxicants, attend church regularly and report as if on parole for one year.

His pardon was recommended by Judge C. C. Jernett, of Muskingum county and by Warden Thomas as well. The trial judge advised the governor that he was unable to give King less than 10 years under the law and because a plea of guilty was entered. Not more than a year would have been imposed had the court been able to use his own discretion. King has served 18 months.

Mike Budich of Akron, is the victim of "the aftermath of prohibition," according to the trial judge, E. D. Fritch of Summit-co. Officials said they believed that the man entered the wrong house by mistake and had no intention of committing a crime.

According to Warden Thomas, Budich is not a criminal and has been a model prisoner. He was received at the prison November 2, 1920. Conditions of his pardon are abstention from intoxicants, avoidance of evil associations and reporting as if on parole for one year.

PROBE OF BRUTALITY IN PRISONS ENDED

TALLAHASSEE, Fla. — Investigation by a joint legislative committee of the Florida legislature of the alleged brutality to convicts in various private labor camps in the state ended yesterday. Senator Harry S. New, in an address here, John P. Stokely, chairman of the committee, used a formal statement in which he declared that the committee had gone to the limit of its authority and could find no further useful purpose. The report of the committee will be dated and submitted at once, it was announced.

More than 100 value ex were heard. The investigation began with the death of Martin "Babe" Smith, a convict, alleged to have succumbed to the alleged brutal tactics of a camp "whipping boys" and on Thursday an ugly description of alleged brutality in the private camp of Senator J. J. Rusk in Baker county.

LILLY WHITE SOLD TO ROXANA CO.

Competitor of Standard Takes Over Big Holdings

STOCK SELLS AT \$28 SHARE

Par Value of Shares When Issued \$10

Negotiations for the sale of the Lilly White Oil Co., of Lima, have reached a stage where the deal will be completed within a few days at a price of approximately \$750,000, it was learned Friday.

The purchaser is the Roxana Petroleum Co., American subsidiary of the Royal Dutch Shell Co., an international oil corporation whose stockholders reside mainly in England and the Netherlands. The Dutch-Shell is the strongest competitor of the Standard Oil Co., in world operations.

Officials of the Roxana company were in Lima Friday to complete the deal, it is reported.

Three-fourths of the 22,000 shares of Lilly White common stock was held by Lima persons. Its par value was \$10.

The last block of common stock was transferred to the Roxana company Thursday, it is understood. The stock brought \$28 a share. DEAL ON TWO MONTHS

The deal has been pending two months, but only those close to the chief stockholders knew a sale was contemplated. Officials in charge of the main offices of the company in the Mauro block denied a week ago that negotiations were under way.

Preferred stock of the Lilly White Co., amounting to \$120,000 at par value of \$10, does not benefit by the sale. It was issued bearing an interest rate of seven per cent and was to be retired at the end of five years at a 10 per cent advance in price.

The Roxana company will merely retire the preferred stock of \$11 a share, it is understood. Common stock has paid 10 per cent dividend annually since the company was organized in 1916.

The Lilly White Oil Co., is engaged in wholesale and retail distribution of oil and oil products and holds extensive interests throughout northwestern Ohio.

A bulk station and compounding plant are operated in Lima and bulk stations are maintained in Defiance, Colma, Van Wert and Bellefontaine. The company sold nine million gallons of products last year, it is reported, and has a storage capacity of 700,000.

It also operates three filling stations in Lima. It is president of the company, F. W. Cook vice-president, Theodore W. Dymally, treasurer, and J. M. Stodt, secretary and general manager. E. W. Mosler was also a large stockholder in the company.

NEW PLEADS FOR PARTY UNITY

Admits Republican Split in Speech at Mansfield

MANSFIELD, Ohio — (Associated Press) — Admitting a division in the ranks of the Republican party, at the same time declaring "the alleged brutality to convicts in various private labor camps in the state is no better," Postmaster General John P. Stokely, in an address here, said he believed that both parties were suffering from "lack of cohesion."

The postmaster general pleaded with his auditors for party solidarity against "those individuals, who by theories and financial considerations of ours and faith in the party to which we belong."

While the postmaster general did not cite causes for the division within his party, he set forth the league of nations and war and Americanism as points on which various leaders in the Democratic party are at odds. He did remark, however, that "their differences and divisions are no less sharply defined than those with which we are afflicted."

As the principal speaker at the celebration of the birth of John Sherman, Mansfield's most famous citizen, New urged "more faith and less criticism" in this country of ours and faith in the party to which we belong.

Accomplishments of the Harding administration, he declared, may bring about the unexpected in the "form of an early reduction of federal taxation."

TRAINED NURSING 50 YEARS OLD

First Graduate Now Teaching
Others the Profession

SATURDAY IS HOSPITAL DAY

Visitors Invited to City Hospital
and St. Rita's

Lima hospitals Saturday will observe National Hospital day.

Special exercises will be held in St. Rita's hospital during the afternoon, and both hospital buildings will be open to the public during visiting hours.

B. F. Kelly and L. E. Ludwig will speak at St. Rita's. The former's subject will be "National Hospital Day" and the latter will talk on hospital maintenance.

Musical selections will also be given. A radio concert has been arranged and members of the Guild of the institution, will act as guides to show visitors over the building. Visiting hours will be from 9 to 11 a. m., 3 to 4 p. m. and 7 to 8 p. m.

VISITORS INVITED

Miss Ella B. Rotherson, manager of the City Hospital, announced there will be no special program there, but that visitors will be shown thru the building.

Graduation exercises at St. Rita's will not be held on this day as has been the custom. The event will take place May 30.

Saturday marks the fiftieth anniversary of the trained nurse.

"Only for the last half century have we had with us capable, white-capped serious young women who work as scientifically as the doctor, who have robbed operations of their danger and hospital sentences of their terror," said Miss Patterson, manager of the City hospital.

FIRST NURSE

The profession, which now ranks second only after teaching in the number of women employed in it, is so new that the first trained nurse in America is still living. She is Miss Linda Richards of Boston, who was night superintendent of Bellevue Hospital, New York, in 1873 when the first nurses' training school was organized and six pupils enrolled.

Today there are 1577 registered schools for training nurses. In the United States alone and there are 150,000 trained nurses daily engaged in fighting the battle with death.

There are 55,000 students in training and 15,000 nurses engaged as instructors.

MORE WANTED

"Yet there have never been enough nurses to meet the demand," says Miss Katherine De Long, general superintendent of Bellevue training school. "The increase of population together with the extension of the use of nurses has quite outstripped the supply."

"It is estimated that in the field

PIONEER NURSE

MISS LINDA RICHARDS, FIRST TRAINED NURSE IN AMERICA.

of public health nursing alone there will be a shortage of 50,000 nurses within a year or two."

Nursing, Miss De Long believes, is one of the most desirable professions for young women of some education.

"Good health, intelligence, an even temper and a determination to overcome obstacles are the most important qualifications," she says.

"As soon as she has her diploma she finds a position waiting for her either with a hospital, institution or as a public health nurse in some community."

"That it is a healthy and happy occupation is evidenced by the fact that the first trained nurse is still living and well."

During the past 50 years Bellevue, the oldest and largest hospital in the country, has graduated more than 1600 nurses from its training school.

This year, on May 15, the oldest nurse, Miss Richards, and the youngest nurse in the 1923 class, Miss Edna Nelson of Gary, Ind., are to be featured in the celebration commemorating the fiftieth anniversary of the profession.

HOME REMEDIES OF OUR ANCESTORS

Almost every man and woman in America can remember the botanic recipes of our mothers and grandmothers for the treatment of disease, and they were wonderfully dependable, too. Every fall there were stored away in the attic thoroughwort, pennyroyal, catnip, sage, wormwood, rue, etc., for treating ill of the family during the winter months that followed. In 1873, Lydia E. Pinkham's Vegetable Compound was first prepared from one of these botanic recipes, and the demand for it has increased to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation. It has recently been proved that 98 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.—Adv.

EGYPTIAN KINGS BURIED IN PARIS

Ancient Monarchs Interred Under Famous Bastille

JUST DISCLOSED BY PROBE

Mummies Removed by Noted French Archaeologist

PARIS — (Associated Press) — A French investigation has disclosed the fact that a number of the royal dead are interred in the famous Bastille shrine of liberty.

It appears that Champollion, the French archaeologist and Egyptologist, years ago sent a number of mummies from Egypt to the Louvre. Egyptology was in its infancy and doubtless

sufficient precautions had not been taken to retain the mummies in their original state. When the royal remains arrived in Paris it was found impossible to place them in the museums, as had been intended, and in 1830 they were buried in the Gardens of the Louvre.

DISCOVERY OF SKULL

Then followed the stormy days at the end of July, when the population of Paris rose in protest against the ordinances of King Charles X. Fighting took place near the Louvre and Tuileries, and the bodies of those killed were buried where they fell. It is recorded that in the course of this task one of the citizens struck with his spade a skull which he thought to be that of a victim of the Massacre of St. Bartholomew, but which was in reality that of one of the Pharaohs buried a few months before.

When the revolution had been accomplished the new government decided to commemorate the event by the erection of a column, and the remains of the victims buried in the royal gardens were exhumed and placed beneath the new column in the Place de la Bastille. The bones of the dead Pharaohs were transferred with those of the Parisians who had risen to defend their rights, and still lie beneath the monument in the midst of one of the busiest squares of Paris.

PLUCK IS SHOWN BY 'FEVER GIRL'

Lives Thru 10 Operations and
Consuming Temperature

MILWAUKEE — (Special) — To

live thru two years of fever, running from 107 to 119—
To live two years without a mouthful of food or a glass of water—
To be kept alive two years by forced liquid feeding—
To undergo ten operations.
That takes grit.

And it is plenty of grit that Anna Mantle, 35, who lives here with her aged mother at the home of her brother, Edward Mantle, as

sat propped up on seven pillows—to make breathing easier,
BETTER, SHE THINKS
"You see I've stuck it out this far, and I really believe I'm a little improved because the fever has gone down in the last few weeks, so why should I give up now?"

"Oh, yes, I've been ready to die several times, but each time I pulled thru. I've made my peace with God and am prepared. But I do so want to get well. So I just determined to live on, and I do."

Anna has big brown eyes that

stand out startlingly against the pallor of her skin. She continually has a cold compress or an ice pack on her head to keep the fever down.

Lying on her bed, not able to move from one side to the other, she keeps in touch with the outside world thru newspapers and her many friends.

With wonderful clarity of memory Anna tells of the oncoming of illness.

down-town store as a clerk, when she was first taken ill, she said, tho she had never been strong.

FIRST OPERATION

Then followed an operation and but little improvement. Then came another operation and another and another. This continued up to two years ago when she suddenly grew worse and took to her bed.

Her fever mounted rapidly and hovered for months around the 110 mark. Never was it below 107.

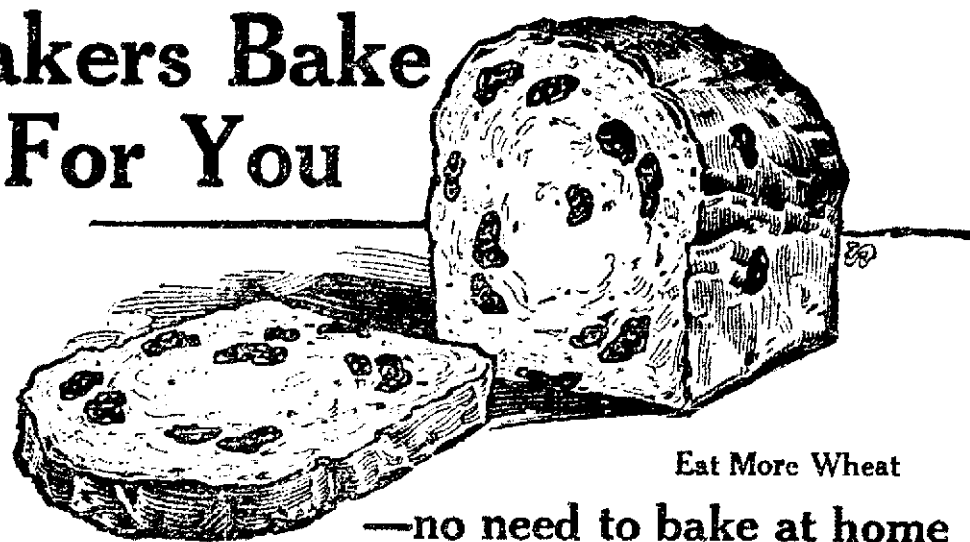

Her physician couldn't believe his own eyes. He called in other medical men who in turn recorded the temperatures—and predicted a quick death. But Anna lives on.

Her malady is a kidney disorder.

NURSE HOLDS LIFE SAVING RECORD

One of First Graduates of First Training School

IN PROFESSION 50 YEARS

Describes Hospitals When She Began Work

NEW YORK—(Special)—A life-

saver, undecorated with medals and awards, holds a record that may never be surpassed.

A nurse for nearly 50 years, she is still on the job quietly, heroically, going on with her work of rescue.

She is Miss Susan West, one of the first graduates from the first American training school for nurses, established in Bellevue Hospital in 1873.

"After all these years," she says, "nothing seems to me more worth while than the profession of nursing. Today, much more than in my time, it opens doors to many opportunities."

"American nurses are wanted now in every part of the world to nurse or to open training schools. Important positions are open to the able nurse in almost every country. But

it was not that way 50 years ago when I came to Bellevue."

Then a nurse had to do a patient's laundry if he had clean clothing, had to light a candle at night if the sick needed attention, for the gas was turned off, and had to use carbolic acid as the only antiseptic.

BIG CHANGE

"The care as to detail that makes the modern hospital a life-saving institution," says Miss West, "did not exist then. But with the coming of the trained nurse came the change."

It was some change, for Mrs. Elizabeth C. Hobson, who was one of the women who started the training school, says these conditions existed:

"There was no regular night nurses. A man, called a night watchman, passed thru the wards and if he found a patient ill or dy-

ing he called a young doctor.

"Occasionally patients who had been overlooked were found dead in the morning."

"Rats scampered over the floors at night."

"The house staff dressed wounds, going from one patient to another, often carrying infection in spite of precautions used. Sponges for washing the wounds were not cotton, but bits of real sponge, and were used on one patient after another without any disinfection."

But all that has been changed with the advent of the new methods and better training.

HERE'S ANOTHER CHANCE FOR EINSTEIN SHARKS: QUANTUM THEORY LATEST

WASHINGTON—(Special)—

All who understand the Einstein theory may now get busy with the quantum theory. One's as simple as the other.

Besides it pays to understand the quantum theory. Dr. William Duane, learned scientist of Harvard university, has been awarded \$1500 for his investigations into the theory, by the National Academy of Sciences. The money represents the Comstock prize, awarded once every five years for scientific discovery.

The quantum theory deals with atomic structure and the radiation of light. Heretofore it had been accepted that a light wave and a

radio wave radiated similarly. But Dr. Duane says his inventions slightly confused to ordinary mortals.

Energy released from atoms in the form of light always goes out in definite "dribbles" or "quanta," Dr. Duane says. Radio waves resemble the waves created on a quiet pool of water when a pebble is tossed therein.

Simple, isn't it? But although Dr. Duane has won many to his way of

thinking, which leaves the matter slightly confused to ordinary mortals.

Court Acts on Cleveland Race Track Case

BETTING INJUNCTION SOUGHT

Action Taken Against Ohio Jockey Club Dismissed

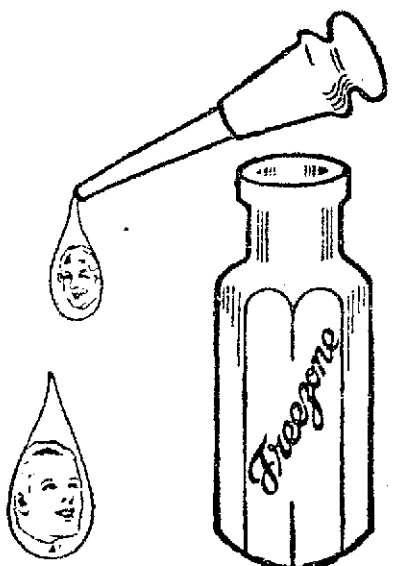

CLEVELAND — (Associated Press.) — An application to stop betting at the Ohio State Jockey Club running races at Maple Heights was dismissed by Common Pleas Judge Powell this morning.

The injunction was asked by E. S. Edwards, claiming to be a stockholder in the club, on the ground that he would suffer loss thru the possibility of the state revoking the charter under which the club operates if gambling is not stopped.

The court granted the motion of attorneys for the jockey club to dismiss the petition on the ground Edwards had failed to show a clear right to the relief sought for, and that "it is well settled that courts of equity will not enforce provisions of injunction for the purpose of enforcing criminal laws by restraining criminal acts."

Aged Man Declares the Plant Juice Did Wonderful Work in His Case

WHAT HIS SYSTEM NEEDED

"I am 79 years of age but I feel a great deal younger since I have taken your Plant Juice and I am glad to recommend a medicine of such merit," said Mr. William Kinark, of 716 Home Avenue, Fort Wayne, Indiana, while talking with The Plant Juice Man recently.

MR. WILLIAM KINARK

Mr. Kinark is well known at Fort Wayne, being a property owner and a member of Masonic Lodge No. 312. He is a veteran of the Civil War. Continuing, he said:

"Your Plant Juice proved to be a preparation of great merit in my case. I have taken five bottles and the best of it has given me has been wonderful."

"I had been suffering a great deal from stomach and kidney trouble. My stomach would not digest and cause me great distress. I also had poor digestion, my kidneys were continually out of order so that I would have to get up out of bed several times each night."

"The first few doses of your Plant Juice seemed to be just what my system needed and since I have taken the five bottles I am feeling 100 per cent improved. Both my stomach and my kidneys seem to be normal now and by bowels are regular as clockwork. I am glad to endorse a medicine of such merit."

Plant Juice is a natural medicine made from medicinal roots, herbs and leaves which are gathered from the fields of nature. It seems to have a surprising effect upon the stomach, liver and kidneys and has given relief in several thousand cases in Lima and vicinity in just the past few months.

The Plant Juice Man is at Hunter's drug store, 49 Public Square, Lima, where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given.

Plant Juice is also sold in Lima at Hunter's drug store at Main and Wayne streets and at the Argonne drug store, opposite Post Office.—Adv.

SIMMONS WILL FIGHT EXECUTION OF 1 YEAR SENTENCE IN PRISON

Proceedings in error filed in Logan-co common pleas court by D. D. Simmons, American-Id., will halt for the time being the carrying out of a one year sentence in prison on an embezzlement charge pronounced by Common Pleas Judge J. C. Hoyer, at Delafontaine.

Simmons was convicted by a jury in Logan-co on a charge of embezzling the sum of \$22 belonging to a Bellefontaine merchant. He is out on \$1,000 bond pending an appeal. Motion for new trial filed early this week by counsel for Simmons was overruled.

Simmons faces trial in Delafontaine on a second charge.

Pure, Fresh Air in Your Oven

AND PERFECT DISTRIBUTION OF HEAT

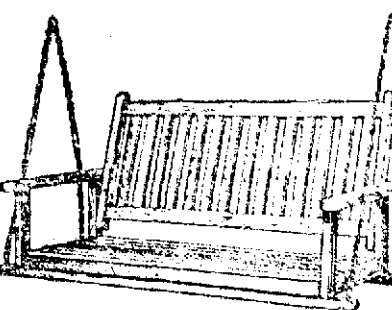

By an original improvement in oven construction, the Estate Gas Range heats and sterilizes fresh air flowing into the oven itself. The air from the burning gas, laden with combustion products, while it heats the oven, is excluded from it.

Absolutely uniform oven heat is one of the advantages of this construction. Another great advantage is the greater baking capacity. A 16-inch Estate Oven actually has the baking capacity of an 18-inch oven in other ranges.

Fresh-Air Baking means better baking, easier baking, more wholesome foods, less shrinkage, greater baking capacity, and a material saving in gas.

Estate Gas Ranges may be had with or without the Therm-Estate Oven Heat Control—a wonderful device which fixes and holds the oven heat at any required temperature.

MAY BE RETURNED TO FACE COURT

American Now in Europe Charged With Forgery

NEW YORK—(Associated Press)—Officials of the state department may be asked to issue extradition papers for the return from Europe of George Maxwell, president of the American Society of Composers, Authors and Publishers under grand jury indictment on charges of forgery and sending scurrilous letters to Allan A. Ryan, financier, and son,

of Thomas Fortune Ryan. This was learned today following announcement of the indictment which was returned last month and which the authorities were said to have made every effort to keep secret.

Ryan turned over to the authorities several typewritten letters, all but one of which were unsigned and

which were said to have mentioned Maxwell and Mrs. Ryan. The envelopes were addressed in handwriting resembling missives of a similar kind which four years ago were sent to several prominent men in this city in each of which Maxwell's name was alleged to have been linked with that of the wife of the recipient.

Maxwell recently left for Europe, announcing his intention to return in July or August.

Investigation of the charges contained in the letters of four years ago as well as those to Ryan was said to have proved them to be without foundation.

Careless Shampooing Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is (which is pure and greaseless), and is better than anything else you can use.

Two or three teaspoonfuls of Mulished in a cup or glass with a little warm water is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mulished coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulished.

FARM AGENTS IN CONFERENCE

Ohio Crop Professor Speaker at Friday Meet Here

LITTLE CROP DAMAGE SEEN

Miss Edna Callahan Outlines Work for Year

Wallace B. Hanger, secretary of the Ohio Seed Improvement association and professor of crops at the state university, spoke at a conference of farm agents Friday at the Board of Commerce auditorium.

The meeting was the regular monthly conference of county agents from eight adjacent counties who convene to discuss mutual problems, from 9 a. m. to 3 p. m.

The agents discussed the question of fair exhibits, summer meetings and ways of maintaining interest during these months.

Hanger spoke on the subject of wheat standardization, certification and registration.

Farmers of Alliance do not believe the recent blizzard damaged the fruit to any great extent, H. J. Ridge, county agent, stated Friday. It will be impossible to tell definitely for several days, he said.

The ground is now in excellent shape to work, Ridge declared, and corn was not sufficiently far along to be damaged. The oat crop will thrive on the cold. Hence, barring possible damage to fruit, the farmer is not disposed to quarrel with the weatherman, he said.

High school credits may be secured by girls for successful club work, H. J. Ridge announced Friday. According to a ruling by Vernon Kiegel, state superintendent of public instruction, it is possible for a girl who is not taking Smith Hughes work to secure one-fourth credit for each year of club work completion. A total of four such credits may be secured.

Clothing club leaders met Friday with Miss Edna Callahan at the Board of Commerce auditorium to hear an outline of club work for the coming year.

Miss Callahan explained the organization requirements to secure a charter. Each club must have five members and a local leader. The plans are reported to the county agent, who will secure for participants a permanent charter.

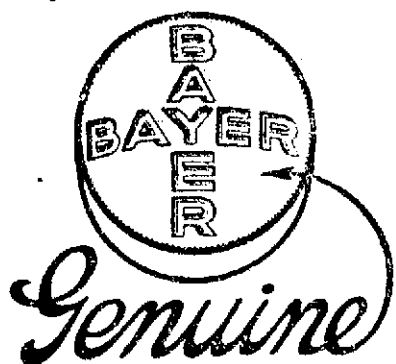

If 60 per cent of the membership complete club work with an average of 70 per cent, a demonstration team will be developed.

Work of the demonstration team will secure for the club a gold seal. A gold seal may be had each year if the club succeeds in producing a demonstration team that often.

C. F. Merz, manager of the Alliance Live Stock association, went to Cleveland Thursday evening with a load of cattle consigned from Ohio.

Just 20 Seconds a Day and a Milk Scale

It just takes 10 seconds to hang a milk bucket on a scale, record the weight and pour the milk into the can. Twice a day means 20 seconds a day for each cow.

Don't you think that is mighty little effort to use in checking up and finding out whether or not those cows are paying you a profit?

Lots of dairymen who never gave the matter any thought or never actually figured their cost of grain feed per pound of milk are beginning to do so now. The man who is taking chances on profits or failure in the dairy business is the one that does not know what his cows are doing.

We will be glad to tell you how you can make a very profitable test on your cows with Cow Chow and how you can obtain a milk scale at manufacturer's cost and free milk record sheets. Just write, call or phone us.

It has assumed proportions that have caused some of Haynes' friends to fear it will succeed.

The alleged breakdown of prohibition enforcement under Haynes' administration is the basis for the attack. Reported widespread corruption in the prohibition force is being used as one argument against Haynes by his enemies working to force his resignation.

Second Confession in Schemmel Hold-Up Made

Carson Brentlinger, 22, of 125 W. Fourth-st, confessed to police Friday following his apprehension here that he was a member of the party which planned to hold up and rob George Schemmel, Wapakoneta manufacturer, April 19. Chief of Detectives Kipker declared.

Bernard Copeland, 22, whose home is near Cridersville; Harold Edgington, 21, of 963 1-2 S. Main-st; Lillian Barber, 17, of 242 S. Pine-st and Martha Lowry, 19, of 210 1-2 E. Market-st, were to be arraigned at Wapakoneta Friday afternoon before Justice of the Peace R. G. Hermann, along with Brentlinger, on charges of highway robbery.

Copeland was arrested at his home in Auglaize-co and Edgington was apprehended here Thursday. The two girls were taken by police following an investigation by Sheriff Ewing of Auglaize-co. They confessed after questioning, implicating the men.

Confessions said that Schemmel was in the company of the two girls and Copeland. The other two men held up the party near a school house in Auglaize-co according to a pre-arranged plan but failed to get any money, the confessions said.

All the parties alleged to be implicated in the case will be questioned about local street car holdups.

LOCKED OUT OF HOME, SHE SAYS, WIFE ASKS DIVORCE

A locked door confronted her when she returned home from a walk on February 1. Mrs. Margaret Reed, alleges in a divorce action instituted in common pleas court Friday, naming Isom H. Reed, florist, Richmond, Ind., defendant.

Mrs. Reed recites that she was married in Hopkinsville, Ky., in 1913. She has one child, Edith A. Reed, 7. She asks that care and custody of the girl be given to her.

On three separate occasions she has been abandoned by her husband she avers, and also accuses him of failure to support her. False accusations concerning her character alleged to have been made by Reed are made a part of the grounds for action.

Arrangements made in a divorce petition filed by Lewis Gordon are referred in an answer filed by Mrs. Nettie Gordon, 324 Holmes-av. In a cross petition incorporated in the answer, the wife charges Gordon with desertion.

NEW BUILDING CO.

Organization Under Way to Develop O'Brien Addition

Organization of a building company to develop the new O'Brien addition in the west end will be effected within a few days, Ralph Runyan, manager, announced Friday.

The addition is bounded on the south by Ashton-av. on the east by West-st, on the north by the alley north of O'Connell-st and on the west by a line half a block west of Baxter-st.

Lots in the addition are being sold on condition that residences costing at least \$4,000 must be erected; that no double houses, terraces or other "architectural freaks" be built; and that no old houses shall be moved in. Telegraph and telephone wires will connect with houses in the rear.

The building company now being organized will consist of the majority of houses in the addition, Runyan said.

NURSE MAROONED IN AMERICA

Tries to Get Home for Fifteen Years; Ships Pass by

LEFT ISLAND TO STUDY

And Now She Can't go Back to Her Father's Country

BRIDGEPORT, Conn. — (Special) — Lillian McCovey, nurse, is marooned on the continent of North America, in the midst of civilization.

For 15 years she has tried to get a ship to rescue her and take her home—but no ship will stop there.

So, as far as her father's country is concerned, she is dead. Her father, a doctor, who lives in a city, knows about her and writes with a heavy heart.

Here's her story: Lillian McCovey was born on an island, one of the many in the southwest Pacific. Her father is president of the island.

When she was 17, other girls were regularly sent to the mainland to go there. She had a chance in 1919 by meeting a man on a ship.

When Miss McCovey was a little girl a disease ravaged the island which could have been cured by any of the settlers' medical knowledge.

So, as Miss McCovey grew older she decided to come to America and learn nursing. She went to Samoa in a little ship which went to the bottom as soon as it reached the harbor.

Thence she proceeded to San Francisco. She studied nursing in Battle Creek, Mich., and then came here to practice, but she couldn't get back to the island.

Now comes a little patch in nursing the Australian ship, and she has stopped at Pohnpei on its way to New York and Honolulu. Miss McCovey, a boy, and his friends.

She's hoping the island will stop at the island on its way back. If it does, she'll be among the people again.

MEASLES EPIDEMIC IN COUNTY IS LESSENING

Epidemic of measles which has prevailed in the county for the past month is abating. Dr. J. F. Sutter, county health commissioner, announced today.

New cases are coming out much less frequently indicating that such new cases are appearing in scattered spots.

Indication is that the epidemic is running its course and the infected families, and that with the close of school the spread will be checked.

The common people learn that direct contact with a person who has the disease is not necessary to catch the disease, Dr. Sutter declared.

At present they are inclined to neglect the children of a child thus contact with persons and over-emphasize the value of family isolation," he added.

I TRIED many baking powders and finally found Calumet gave me the results I wanted in every way.

Now my parties have the reputation for delightful baked things.

It is a fact that Calumet determines success in baking, and that millions of housewives rely upon it always for light, tender, tasteful things.

If your bakings are not uniformly successful, change to Calumet for just a single trial.

CALUMET

The Economy BAKING POWDER

prevents failure and spoiling of ingredients; moderate in cost, and because it has more than the ordinary leavening strength, less is used.

The sale of Calumet is over 2½ times as much as that of any other brand.

A great institution makes and keeps it pure. It contains only such ingredients as have been officially approved by the United States Pure Food Authorities.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

TOO BLASE, BORED BY CIRCUS

5-Year Old Girl Sits Unmoved by Spectacle

ANIMALS DON'T STIR HER

But Woman Acrobat's Rouge Gets Flicker of Interest

NEW YORK — (Special) — Although she is only five years old, Stefania Kirsman is already so blasé that she can't get a thrill from life. She's the product of the close con-

ditions of a crowded New York district. But her prototype may be found anywhere.

A dried geranium plant in her garden; and the narrow busy streets her idea of the wide open spaces. Any patch of green grass, no matter how small, means "the country" to her.

But when it comes to worldly matters, Stefania knows as much as her elders.

She had never been to a circus. But she had seen part of one in the movies once. Since it was some kind of show, she said she wouldn't mind much if she went.

The elephants, the bears, the tigers and the clowns didn't interest her much.

"They're trained," she said curtly. "Anybody can learn to do anything."

But the trappings "got" her. A woman acrobat came out to do her turn.

"Ain't she grand?" sighed Little

Stefania. "Look at her fine powder and rouge."

Then, whispering a big secret: "Bet she uses an eye-brow pencil, too."

"HE'S MARRIED"

An animal trainer came out to direct his horses.

The little girl perked up.

"He's married," she confided. He had a white catamite in his button-hole, and that's what the bridegroom wore at a wedding Stefania once attended.

There was a lull. Tumblers and contortionists held the rings. The five-year-old was bored.

But then came a tightrope walker bespangled in tinsel.

"Lookit, lookit!" cried Stefania. Some dress. But she must be rich, all right. Gee!"

Thick stunts on the wire didn't interest her. She kept her eyes glued on the silver trimmings.

"Mayb' I'll get doped up like that when I grow up."

The circus was over for her.

There wasn't a thrill left in the freaks, the riders or even the man who puts his head in the lion's mouth.

TURKEY WANTS NO EUROPEAN TIES

Absolute Divorce Planned by Ankara Government

SEEKS U. S. FRIENDSHIP

Economic Cooperation With American Interests Desired

WASHINGTON (United Press)—The foreign policy of the Ankara government, as reflected by the Ankara peace talks and by the recent statement of the Ankara government, is dominated by the desire to free Turkey from European political influences.

On the one hand and a political alliance with other Asiatic countries on the other.

The alliance of the Turks with Soviet Russia has a purely political character. It has come about through the complete political isolation of Turkey, which sought the support of the Soviet Union as the only country equally isolated from the West and antagonistic towards Great Britain.

Of late, however, there has been a certain tension between Moscow and Ankara, due to the fact that the Ankara government did not accept the Bolsheviks' proposal to Turkey, the Turks having even reported several Bolshevik activities.

POLITICAL DEFENSE

In its cooperation with Persia, Afghanistan and other Asian countries, the Ankara government is trying to create a common line of political defense against future aggression by the European powers.

On the other hand, however, the Ankara government is also trying to create a common line of political defense against future aggression by the European powers.

They are firmly convinced that the United States is the only power which would do business in Turkey by aiming merely at a legitimate profit, and refraining from any political designs.

This consideration and their deep distrust for European diplomats, is the reason why the Ankara government has given preference to American interests.

FLU IN URSINE

LONDON—Epidemics of spotted fever and dysentery are raging in the Ukraine. More than 150 persons are reported ill, by Bolshevik official statements.

STUDENTS BUILD REAL HOUSES

Practical Training is Given St. Paul Boys

ST. PAUL — (Special) — Reading and writing and arithmetic long have been recognized as the foundation of education.

But students at the South St. Paul High School are building their educational foundation of concrete and erecting houses on the foundation besides.

"Book learnin'" may be all right, the teachers agreed, but when the students demanded more practical education, they decided to give it to them.

As a result, this is what the students have accomplished during the last three years:

BUILT and completely equipped three model houses.

STARTED construction on a fourth.

CONSTRUCTED a model of a garage.

WIRED 1 of a house for electricity.

In addition to this, the students modeled several dwellings.

All the houses are built for students of the community. The teacher supplies the material, the students the labor.

The students start at the bottom and none of the rough work is spared them. They come to the building the construction of the house.

Next come the carpenter and so on until the house is complete.

Before the work is finally done, students have learned the use of electricity, built the fire place, installed the built-in kitchen.

The finishing touches include the interior and exterior decorating and building the new house and its walls.

The students, however, do not spend all their time in paying to

bor, for half of their course must be spent in pursuing the academic branches of the high school curriculum. This is accomplished during the inclement weather.

SUSIE SMART'S ADVICE

Dear Miss Smart:
I am 19 and in love with a young man who goes regularly with another girl. Everybody thinks that she is not in the least worthy of him and she goes around telling people that she does not care for him. How can I tell him about this girl's attitude toward him and show him at the same time that I care for him dearly?

THANK YOU.
It would be a great mistake for you to do anything like that. First, because it would be unfair to the other girl. You can't know for a certainty, that she is worthy of him. Probably he is the best judge of that. And hearsay evidence, based on what "everybody" says and thinks, is likely to be most unreliable.

And it would be a mistake, also, from a purely selfish viewpoint, on your part. For if you were to criticize unfavorably the girl he so evidently admires, the young man would be likely to become prejudiced against you instead of against her, and you would defeat your purpose. The fact that the girl accepts marked attention from the young man indicates that she probably has a deep regard for him, regardless of what she may say about the matter or what you or others may think.

Dear Miss Smart:
I had a letter from a cousin to you for advice. I am 16 and I go with a boy who is 17. I have gone with him six months. He treats me with all manner of respect. Do you think I am too young to go with him? Do you think it is all right for a boy to kiss your neck? Do you think of making babies? We never go alone, always with another couple.

I am 4 feet 11 inches tall and weigh 100 pounds. Is that all right? How is my writing?
Children your age are too young to go with each other steadily. That is, for so long a period as six months. My opinion of machine riding depends entirely upon circumstances; however, you are too young to go on motor trips, unchaperoned or with older persons.

You are just a few pounds underweight. Your writing is not very good.

Dear Miss Smart:
As a reader of your column in The Lima News I know you can help me. I had an argument with my daughter and I want to know just how old a boy and girl must be to be married in Michigan without their parents' consent.

The Michigan law says that a girl must be 16 years of age and a boy 18 years of age before they can be married in that state. Does this settle your argument?

Does C. C. care to have the letters that have been written him? Since I published his letter in The Lima News I have received several names and addresses and a few letters for him. Has he lost his enthusiasm to meet the right girl?

BEGIN HERE TODAY

Calvin Gray, hero of the sensational exploits in Dallas, Texas, is the most expensive hotel in the city. He is the only hotel in the city that has a private car for the use of its guests. He is the only hotel in the city that has a private car for the use of its guests. He is the only hotel in the city that has a private car for the use of its guests.

NOW GO ON WITH THE STORY

He returned to his hotel that afternoon pretty well satisfied with his efforts and hopeful that some of the seed he had sown broadcast would be ripe for the reaping ere long. But he received an electric shock when he approached the desk, for the bell captain addressed him, saying:

"Mr. Haviland wishes to see you at once, in his office."

There was a curious brightness to the imposter's eyes, a reckless, mocking smile upon his lips, when he stepped into the manager's office.

Haviland handed him a copy of the leading afternoon paper, and Gray's eyes flashed to the headline of an article reading:

CALVIN GRAY, HERO OF SENSATIONAL EXPLOITS IN DALLAS, TEXAS, HERE IN LIMA, OHIO, ADMITS LARGE OIL INTERESTS BEHIND HIM.

From the opening paragraph Gray judged that he had impressed the reporter even more deeply than he had supposed, but he took no satisfaction therefrom, for Haviland was saying:

"I've read the whole story, but I want you to tell me something more about your self."

"What do you wish to know?"

"Were you in France?"

Over the visitor's face there came a subtle change. Whereas, upon entering he had worn an expression of careless defiance, now he appeared to burden in every fibre and to go on guard.

"I have been many times in France."

"I mean during the war. Did you serve?"

There was a pause. "I did," Gray's eyes remained fixed upon his interrogator, but they had begun to smolder.

"Then you're Colonel Gray, Colonel Calvin Gray?"

"Quite so," the speaker's voice was harsh, and it came with an effort. "But you didn't read that in the Post, did you? What's the idea? Out with it."

"Strange circles we move in," Haviland was saying. "Do you know who owns the controlling interest in this hotel? Surely you must know or can guess. Think a moment. It's somebody you met over there and have reason to remember."

A sound escaped from the throat of Calvin Gray—not a cry, but rather a gasp of amazement, or of rage.

"Ah!" Haviland grinned in triumph. "I thought—"

His guest leaned forward over the desk, with the faint suggestion of a smile, and said:

"His whole expression was one of such hatred, such fury, the metamorphosis was so startling, that the hotel man stiffened in his chair and

stared upward in sudden amazement. "Nelson?" Gray ejaculated. "Nelson? By God! So! He's here!"

Haviland stirred. "I don't know what you're talking about. Who's Nelson?" After a second he exclaimed: "Good Lord! I thought I had a pleasant surprise for you, and

CALVIN GRAY, HERO OF SENSATIONAL EXPLOITS IN DALLAS, TEXAS.

I was gracefully leading up to it, but I must have jizzed it all up. I was going to tell you that the hotel and everything in it is yours."

"Excuse?"

"Why, the Ajax is one of the Dietz chain. Herman Dietz of Cincinnati owns it. He left for the North not an hour ago. At the last minute he heard you were here—read this story in the paper—and had

believed he was the place for you."

"Colonel Gray uttered another exclamation, this time an expletive of deep regret. He fought with himself a moment, then murmured an apology. "Sorry. You gave me a start—decidedly. Herman Dietz, eh? Well, well! You made me think for a moment that I was a guest in the house of some other—friend."

"Friend?"

"Exactly!" Gray was himself again now. He ran a loosening finger between his collar and throat. "Quite a start, I'll admit, but—some of my friends are great practical jokers. They have a way of jumping out at me and saying 'Boo!' when I least expect it."

"Unlucky! I see. Mr. Dietz told me that he was under lifelong obligation to a certain Colonel Calvin Gray. Something to do with passports?"

"I guess rendered him a slight favor."

"He doesn't regard the favor as 'slight.' He was about to be imprisoned for the duration of the war and you managed to get him back home."

"Merely a matter of official routine. I felt sure he was a loyal American citizen."

"Exactly. But he makes more of the incident than you do, and he gave me my instructions. So, what can I do for you in his behalf? You have only only to ask."

Gray pondered the unexpected offer. He was still a bit shaken, for a moment ago he had been more deeply stirred even than Haviland suspected, and the emotional reaction had left him weak.

"Well, name your request! But there something anything we can do for you?" Haviland repeated.

"There is, decidedly," Gray smiled his warm appreciation of the tender. "If it is not too great a drain upon the Dietz millions, you may keep a supply of cut flowers in my room. I'm particularly fond of roses, and I should like to have my vases filled every morning."

"You shall dwell in a perfumed bridal bower."

That evening, when Calvin Gray, formally and faultlessly attired, strolled into the Ajax dining room he was conscious of attracting no little attention. For one thing, few of the other guests were in evening dress, and also that article in the Post, which he had read with a curiously detached amusement, had been of a nature to excite general notice.

His first results were prompt in coming. Even while the head waiter was seating him, another diner arose and approached him with a smile. Gray recognized the fellow instantly—one of that vast army of casuals that march thru every active man's life and disappear down the avenues of forgetfulness.

After customary greetings had been exchanged, the newcomer, covertly by name, explained that he had read the Post article not five minutes before, and was delighted to learn how well the world had used Gray.

He was dining alone, with alacrity he accepted an invitation to join his old friend and straightway he launched himself upon the current of reminiscence. In answer to Gray's inquiry, he confessed modestly enough:

"I'm the V. P. of our biggest jewelry house, and business is great." After their order had been given, he recited in greater detail the nature of his success.

Gray was interested. "Texas is booming," he said, at the conclusion of the story. "I'm told the new oil towns are something like our old mining camps."

"Except that they are more so. The same excitement, the same quick fortunes, only quicker and larger. Believe me, it's fine for the jewelry business. Look here." Covertly drew from his pocket a letter written in a painfully cramped hand upon cheap note paper, and this he spread out for his companion to point. "There's an example in point."

"The letter, which bore the Ranger postmark, ran as follows:

DEAR SIR—your store has bin recomended to me for dimons and I want some for my wife and daughter. Send me prizes on rings of large sizes. Yours truly,

GUS BRISKOW."

"Unlucky! Who is Mr. Briskow?" Covertly shrugged. "Probably some nester who never saw a hundred dollars all in one place until recently."

"In Heaven's name, introduce me to the opulent Gus Briskow."

"I wish I might. But I don't expect to make his acquaintance. The head of our firm is away and I haven't a man I'd dare trust to send out into the field." Covertly sighed regretfully. "Tough luck! Too bad you're not a good jewelry salesman?"

"I am," Gray declared. "I can sell anything. As for diamonds, I've bought enough in my time to know their value."

Covertly laughed in ready agreement with this statement. "Glad I'm sure of missing this sale."

"I'm not joking. If it's worth while, pack up your saffron salt-tires—all that you dare trust me with—and I'll be your gentlemanly representative."

"Worth while? Good Lord! I'd probably get a ten-thousand-dollar order!"

"Very well. It's settled," Gray's decision had been quickly made. Opacity had knocked—he was not one to deny her admission, no matter how queer her garb.

"Where does Mr. Briskow live?" he inquired.

"Out beyond Ranger, somewhere. But—"

"I'm going to visit that field, anyhow. This will give me an excuse."

"Nonsense! The jeweler did not like to have him pointed at him. For some time he refused to take the order seriously, and even when his host insisted that he would enjoy the look, he expostulated: 'Why, the idea is ridiculous! You—Calvin Gray, the financier, peddling jewelry? Hat Outside of the fact that you wouldn't, couldn't do it, it is not the safest thing in the world to carry a small fortune in jewels through the oil fields.'"

"Of course you insure it against theft?"

"That's the point. We can't. Have you ever heard of 'high-jack' trucks? That's the Texas term for hold-up men, robbers. Well, the country is full of them."

LESLIE PRESCOTT TO HER MOTHER, MRS. JOSEPH GRAYES HAMILTON

DEAREST, DEAREST, MOTHER:

I wish you and dad would just pack up your things and come over and see our new apartment. It is perfectly wonderful and really, mother, I'm a very good cook. With some help from the Woman's Exchange and the roller-skier I get along famously.

Jack told me the other night that he never was so happy in his life and I wish you could see with what pride he showed his chief from the advertising company all over it.

"My wife did all this by herself and I never knew one word about it until she surprised me," he said. "Isn't she wonderful?"

When they sat down to dinner Mr. James—that is Jack's chief's name—said he believed he would get married himself if he could have as nice food as he was eating.

Of course I didn't tell him that the chicken was from the roller-skier, the angel food cake from the Woman's Exchange and the ice cream from the confectioner's. I managed to make the salad and cook the potatoes and peas.

It was a nice dinner, mother, and the table with all our wedding silver looked perfectly scrumptious. You would be proud of your child although I have a bone to pick with you that you did not teach me a little more about cooking. You know I don't dare to roast a leg of lamb or bake a chicken or do any of these things yet. I am so afraid they will be spoiled. And I don't want to get in bad with Jack.

When I think, mother, dear, that this never could have been if you hadn't been so generous to me, I shall never cease to be grateful to you.

Jack got a bonus yesterday on a new contract and he says we can have lots of new things.

He told me this evening after his chief was here that the next morning he had called him into his office and told him that with such a splendid, capable and charming wife as I, he could not help but get along.

There, I think I have told you enough about myself. I am just going to say "I love you" and save the best for the next time. Why does not Alice write? LESLIE.

thoroughly unhappy over the first thing I ever did for him? I have tried to forgive him and I guess I have, but, oh, little secret confidant, I cannot forget that he made me more miserable than I had ever been before in my life. I could not tell this in my letter to mother, but I can tell it to you.

SUNDAY: Letter from Alice Hamilton to her sister, Mrs. Leslie Prescott—Concerning an old sweetheart.

How to throw off that tired, listless feeling

GENERATIONS ago, our forefathers made a "tea" every Spring from certain herbs and barks to purify the blood. Likewise, since 1826, such herbs and barks have been carefully selected, proportioned scientifically and prepared for that great blood purifier, S. S. S. To serve beneficially from one generation to another successfully is a guarantee of its effectiveness. The way we live and eat, we can't step from Winter into Spring without

out purifying the blood; unless we choose to suffer depression, feel tired out, and have pimples and boils. It is so easy to give nature a little help, and the best sure way is to start with S. S. S. Stronger and more useful nerves depend on blood-power. S. S. S. will give you that greater endurance, energy, strength, and a more youthful appearance.

Mr. J. M. Mar, Los Angeles, Calif., writes: "Overwork occasioned a complaint which consisted of a tired feeling and pains in the back, that finally exhausted all my strength. A friend advised me to take S. S. S. and after taking only several bottles I was entirely relieved."

Try it yourself. S. S. S. is sold at all good drug stores. The large size is more economical. Get a bottle today!

S.S.S. makes you feel like yourself again

PAPER CAR WHEEL THING OF PAST

Dropped Entirely in Construc-
tion of Pullmans

REPLACED BY ALL STEEL

Expanding and Contracting De-
clared Misapprehension

CHICAGO — (Associated Press)
The paper car wheel that intrigued
the imagination of America years
ago and which once served on every
Pullman car, is now only a memory,
according to the Pullman News.
The steel wheel has succeeded the
paper-cored wheel in every instance.
The public's idea, back in 1880,

that the paper wheel's superiority
was that the paper center would not
be susceptible to the expanding and
contracting influences of heat and
cold was a misapprehension, as the
real reason for its value lay in the
deadening of sound under passenger
cars, particularly Pullmans. It was
successful for 25 years and then the
all-steel wheel began to take its
place, until today there is not a pa-
per-cored wheel on any Pullman car,
according to the News.

KIND USED

In manufacturing the paper wheel
common strawboard paper, such as
butchers formerly used to wrap meat
in, was needed. At first 16 sheets
were placed together, dampened,
pressed and baked. Three sections,
or 48 sheets, were then pressed to-
gether and dried for from 30 to 90
days in a kiln. The final process
was to take four sections of 48 sheets
or 192 and press them together.
This made up the block from which
the wheel was made and it was al-
lowed to dry in the kiln for six
months.

All that then remained was to turn

this block on a lathe until it attained
the desired spherical form. This
paper center would be incased in a
steel tire and sides, the latter being
clamped together. A 38 inch wheel
with a three inch tire weighed about
1,070 pounds. The present Pullman
all-steel wheel, of which there are
12 under each car, is 36 inches in di-
ameter and weighs 925 pounds.

"Mighty Lak' a Rose" Is Sigma's Week-End Attraction

"MIGHTY LAK' A ROSE," Ed. Carey's new production, will be the attraction at the Sigma Theatre for three days beginning Saturday. This picture tells the story of a poor young girl whose sweet appealing nature is enhanced by the wonderful appeal in the music of her violin. When Providence transports her into the midst of a class of crooks who intend to use her in their schemes, a thrilling battle between the forces of good and evil begins and ends with good not only winning, but having its conqueror too lowly to enjoy it.

Dorothy Mackall, another pretty and talented Polka girl, and James Bennett, now the husband of Dorothy Gish, are at the head of a cast that includes: Helene Montrose, Anders Standolf, Sam Hardy, Paul Panzer, Harry Short and Jean Bronte, a Scotch collier, quite renowned in pictures.

Special mention must be made of Dorothy Mackall. This sweet little English blonde is only eighteen. She began her stage career at fifteen in London, where she appeared at the Hippodrome in "Joy Bell." She came to America the next year because she heard it was the grand old place. All by herself, no influence, no letters of introduction, she walked in and got her place in two of the big numbers of the Ziegfeld chorus. She is said to give a fine performance in "Mighty Lak' a Rose."

"Brass" Opens Week Engagement Saturday at Lyric

TO the movie patrons of this city comes the announcement that "Brass," a screen adaptation of the powerful novel of the same name by Charles Norris, will be shown here for a week beginning Saturday at the Lyric Theatre. The novel discusses marriage and divorce from all angles and is a group of fascinating characters. The transition of the story to the screen will therefore surely be welcomed.

An added factor in the appreciation is the fact that Monte Blue, the popular leading man, has the featured role with Marie Prevost, the former bathing beauty, playing opposite him. These actors are high lights in filmdom, enjoying almost universal popularity here and abroad.

"Brass" is the story of Philip and Marjorie Baldwin, a young married couple who soon find that their way leads in different directions. Philip is just starting in business, and being a recent from the country, is fighting tooth and nail for success and making for little else; while Marjorie is the opposite, a pliant ship of a girl who wants careers and shows and society, and who finds at last a way to her own independence in their lives, and after the divorce they go their respective ways meeting with a multitude of fascinating adventures, filled with astonishing climaxes and situations.

Others in this cast are: Harry Myers, Vera Lewis, Irene Rich, Frank Keenan, Margaret Solder, Helen Ferguson, Edward Johnson, Harvey Clark, Cyril Chadwick, Pat O'Malley, Gertrude Bennett, and Ethel Terry. The production was made by Harry Rapt, the director is by Sidney Franklin, and the scenario was written by John Josephson.

Seat Sale Opens for Hawkins-Ball Stock Co.

THE seat sale for the opening of the Hawkins-Ball Stock Co., starting Sunday morning, opened today at the Faurot Opera House.

A great deal of interest is being shown in the opening of the summer season of stock in Lima. There are already being formed for the opening week and if the Hawkins-Ball company lives up to the rating comments received here, from other cities, families are going to have an enjoyable summer run of high class amusement. One hundred seats and entertainment to the degree of the management. During the summer a great number of the late New York comedies are to be seen here for the first time and "It's a Boy" by William Anthony McGuire will be the first of these successful Broadway hits. The company is said to be exceptionally clever in making the patrons laugh. Doctors have prescribed the Hawkins-Ball company for their patients and complete cures have been accomplished of many puzzling cases.

Since there was such a place as the "It's a Boy" young men from the country have been coming forth in search of fortune and finding out that they left the real thing behind them at home. That's what the young couple in "It's a Boy" discover after they reached New York. Whether you are married, expect to be married, have been married for forty years, "It's a Boy" is a comedy that will please and entertain you. All evening performance at 8:15 and matinee Sunday, Monday and Saturday at 2:30.

"Lima Follies of 1923" Continue at Orpheum

"LIMA FOLLIES OF 1923" continued entirely of local talent is offering a change of specialties as the week end attraction at the New Orpheum theatre. Because of the success of the "Follies" it will be made an annual affair and Walt Windsor, producer, will return next season and produce a new edition of the "Follies" with two local people in the cast.

Harold Frank has been pleasing audiences with his blackface comedy and the Leonard Sisters give some splendid impersonation exhibitions. Others in the specialty numbers are: Verda Gath, Harold Leo, Anderson Brothers, Helen Keefe, Gerald Rink, Lurline Wells, Hazel Stultz, Marie Kimpel, Robert Lee and many more popular Lima people.

ville will be the attraction on Sunday and every following Sunday during the summer months.

PUTNAM-CO FARM BUREAU PLANS UNITED ACTION IN TUBERCULIN CATTLE TESTS

Steps were taken Thursday night at a meeting of the Ottawa-tp farm bureau to handle tuberculosis in test cattle cooperatively, following action of several other townships which are pioneers in the movement.

A resolution adopted the preceding night at a meeting in Pleasant-tp was approved. It provides that the entire township shall unite and that tubercular livestock shall be shipped to one of the large packing plants for federal inspection.

Disposal of infected livestock was agreed upon primarily as a safeguard due humanity.

Dr. A. E. Williams, one of the speakers at the meeting, showed how tuberculosis can be transferred from animals to humans. In milk lies the chief danger, he declared.

Dr. W. S. Yeager, county health commissioner, gives statistics showing results of the war being waged against the plague. He stated some of the money derived from the sale of the Cross Christmas seals was used to buy weight scales and charts for schools and he later hopes to provide each institution with a thermometer that teachers may determine when children are suffering from fever, and send them home.

LEGION MEN SUPPORT HOME SERVICE BUREAU

Efforts to have all American Legion posts in Putnam-co line up in support of the Home Service Bureau, of assistance to ex-service men in securing compensation, vocational training and hospitalization, are being redoubled. Leo J. Kerner post, of Ottawa.

This post adopted a resolution April 25 to retain the bureau and do everything possible to overcome shortage of funds with which to maintain it. Response is expected from other posts within a short time. Legion men say.

"Three years ago I came home thinking 2 or 3 weeks would be my limit to live. I had suffered for 15 years from colic attacks and severe liver and stomach trouble. I happened to see an advertisement of Mayr's Wonderful Remedy and purchased a bottle at the drug store and after taking the first dose I felt better than I had for 15 years. I am now in the best of health—thanks to Mayr's Wonderful Remedy." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. "Mighty Lak' a Rose" Is Sigma's Week-End Attraction

"MIGHTY LAK' A ROSE," Edwin Carewe's new production, will be the attraction at the Sigma Theatre for three days beginning Saturday. This picture tells the story of a poor young girl whose sweet appealing nature is enhanced by the wonderful appeal in the music of her violin. When Providence transports her into the midst of a band of crooks who intend to use her in their schemes, a thrilling battle between the forces of good and evil begins and ends with good not only winning, but having its conqueror for his ally before it.

Joseph Mackay, another pretty and talented violinist, and dancer, who has been of the Ziegfeld chorus, now the husband of Dorothy Gish, are at the head of a cast that includes: Helene Montrose, Auden (Randall), Sam Hardy, Paul Panzer, Harry Short and Jean Bronte, a Scotch collier, quite renowned in pictures.

NEWS OF PUTNAM-CO

PUTNAM-CO FARM BUREAU PLANS UNITED ACTION IN TUBERCULIN CATTLE TESTS

Steps were taken Thursday night at a meeting of the Ottawa-Twp farm bureau to handle tuberculosis in testing cattle cooperatively, following action of several other townships which are pioneers in the movement. A resolution adopted the preceding night at a meeting in Pleasanton was approved. It provides that the entire township shall unite and that tuberculin livestock shall be shipped to one of the large packing plants for federal inspection. Disposal of infected livestock was agreed upon primarily as a safeguard due humanity. Dr. A. E. Williams, one of the speakers at the meeting, showed how tuberculosis can be transferred from animals to humans, he declared. Dr. W. S. Yeager, county health commissioner, gives statistics showing results of the war being waged against the plague. He stated some of the money derived from the sale of old Cross Christmas seals was used to buy weight scales and charts for schools and he later hopes to provide each institution with a thermometer that teachers may determine when children are suffering from fever, and send them home.

LEGION MEN SUPPORT HOME SERVICE BUREAU

Efforts to have all American Legion posts in Putnam-co line up a support of the Home Service Bureau, of assistance to ex-service men in securing compensation, vocational training and hospitalization, are being redoubled. Leo J. Kerner post, of Ottawa.

Estimated cost of the dam will be \$50,000, the appropriation for which will be due July 1.

The dam will be constructed where the canal joins with the river and will be used to hold back the water in the canal to keep it on a level with the river.

The purpose of the meeting Friday is to secure estimates on different parts of the work so that bids may be let.

Came Home to Die

"Three years ago I came home thinking 2 or 3 weeks would be my limit to live. I had suffered for 15 years from colic attacks and severe liver and stomach trouble. I happened to see an advertisement of May's Wonderful Remedy and purchased a bottle at the drug store and after taking the first dose I felt better than I had for 15 years. I am now in the best of health—thanks to May's Wonderful Remedy." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince you money refunded at Hunter's 3 Stores and druggists everywhere. adv

Today's the day.

It is out at Kautz Park.

JUNKIN, Wooster college's best track and baseball star will be off the field for at least two weeks with a sprained ankle. Braden will take his place in the pitcher's box but there is none to replace him on the track. This means Wooster goes into the Alliance meet and a two game baseball series with Ohio university without its most reliable man.

A REAL PRINCE will pilot a car in the Indianapolis 500-mile race classic May 29. He is Prince of Cyria, and has a reputation of being a fast and fearless driver.

ROEDER, Iowa teacher, a college baseball player, had his left eye torn from its socket when a spitter flew from a board on which he was working in the vocational department.

NEW BLEACHERS have been erected at Chicago, Ill., to take care of the crowd expected to attend the Illinois-Michigan baseball game Saturday.

EBERHARDT, Beaumont, Texas league hurler, has been purchased by Manager Jackson of the Birmingham Three Eye club.

THERE WILL BE \$8,000 put on hand for the Kentucky derby on May 19 in Louisville, officials say. All hotels are booked to capacity.

JOCKEY FERGUSON was badly injured by a fall from Locomo during the Mount Washington steeple chase. He was not expected to live.

NORTHWESTERN track men will meet Purdue at Lafayette on Saturday in a dual meet.

CHICAGO racquet wielders defeated Armour Institute, six matches out of seven.

MICHIGAN AND ILLINOIS meet Saturday in a dual track meet at Ann Arbor.

COUNTY TRACK MEET HERE

Bad weather threatened early Friday to cause postponement to the first annual Allen-Cox track meet at City park.

Athletes were weighed in during the morning hours and events were scheduled to be run off during the afternoon. At noon a picnic lunch was served.

Boys and girls representing Harrod, Elida, Beaverdam, Bluffton, Lafayette and Gomer were taking part in the affair.

INDOOR FOOTBALL WORK AT CENTRAL HIGH

Classes In Charge of Schultz

Fundamentals of the game of football are to be given Central high school pupils in the regular gymnasium classes starting next Thursday.

This is the announcement Friday of A. W. Schultz, physical director of the junior and senior high schools. His present plan is to give the senior high school boys all the work in football he can get into the regular gymnasium period and possibly part of the junior period.

FUNDAMENTALS—He will give each such fundamental of the game as passing, proper blocking of falling on the ball, the different ways of blocking passes and kicks and other points. There will be no scrimmage of course and the work will be done on mats in the gymnasium.

In this way he hopes to give the boys lots of time next fall when they first call for football. The coach will not have to spend much time in drilling his players in minor points and will have more time to round him men into a real football machine.

At the present time basketball is being played in connection with the gym classes. The football work will replace it.

ODDS AGAINST WILLARD IN FIGHT SATURDAY

NEW YORK—Jess Willard, biggest and oldest of all the world's active heavyweight pugilists, who will essay at Yankee Stadium tomorrow, to punch father time into an "I've-got-enough" mood, was not considered a first class fighter until he took the world title from Jack Johnson in Havana in 1915.

Willard will meet Floyd Johnson, a man of about half his age. He doesn't look his years, which are around 40. He has as much confidence as the youth, Johnson.

For a man who was champion of the world, Willard's ring record is perhaps less imposing than that of any of the men who wore the crown. He had 34 ring engagements. Eighteen of his opponents were knocked out, those including Jack Johnson who took the count in the 26th round after having pummeled

The third offering of the local baseball schedule brings to Lima the representative teams of Sidney, for years past one of the local team's closest rivals among the loop teams in Northwestern Ohio.

Sidney has never failed to bring with them a pretty fair aggregation of ball tossers when they visit the local yard and the nine who come from the thirty mile town are usually in the frame of mind to fight for a victory from the call of play ball until the final out has been made.

Looking back over last season's games the Sidney crew are shown to have gotten an even break with the home team in the two games that were played by them.

The Sidney team will have had the advantage of having played two games before they stack bats against the locals, having won from Marion April 29 and losing an extra inning game at Springfield last Sunday by a score of 8 and 7.

BATTERY GOOD
Doing the battery work for the Sidney team are two high class semi-pro players. Wenzel, slated to do the receiving, having spent a couple of seasons with the Cincinnati Norwoods, while the ability of Howell has been demonstrated on the local field in his pair of victories over the Lima team last season while he occupied the mound for the Troy team.

Babb, playing first base, commenced last season with the Lima team and was good enough to have made the position but wanted to be closer to home for his Sundays.

Carson, playing the short field, may be greeted by local fans as having performed there in several games while a member of the old Delec club from Dayton. He is a class infielder.

Willard for 25 rounds without upsetting him.

Willard was knocked out once. Jack Dempsey, present champion, mauled him to defeat at Toledo, July 4, 1919. Jess was lax in training for that fight. He learned a lesson. He believes now that in proper condition, he can win back the title.

Tomorrow the odds are against Willard. He may be able to shake off the punches of the youth Johnson but the punches of father time are the hardest punches of all.

STAR CENTRAL SPRINTER IS ILL
D. Peltier, star dash man of the Central high school track team, and high point man in the Ada meet last week, probably will not get into action any more this spring.

He is ill with appendicitis, according to announcement of Head Coach Thelbert.

TRACK WET
Thelbert took his runners for a short jog Thursday as the fair grounds track was far too wet for work. Field men were out doing a little jumping.

Another week remains until the district track and field meet at Ada and Thelbert has a tough proposition ahead of him with his star man out. Poling, Van Horn, Bowser and Hartner are being developed and it is hoped one of them may take Peltier's place.

Athletics Romp Into Third Place

Connie Mack's Philadelphia Athletics continue to furnish the ear season sensation of major league baseball. Having made a good showing against eastern teams they have caught a good stride in their first western invasion after losing the first contest, winning yesterday over the St. Louis Browns in a hectic slugging match, 10 to 7.

With the aid of the 'snow man' in Detroit, who kept the Tigers and Washington idle, and the New York Yankees' victory, the Philadelphia went into third place, topping the Indians.

Everybody in the Yankee line-up hit at least once for a total of 11 safeties and 26 bases and New York drew further away from the pack. Three Indian pitchers were batted out of the box.

Dick Reiche helped to bring college players into the limelight by crashing four hits, including a double and triple, for the Boston Americans, who lost to the Chicago White Sox at Chicago 9 to 7. Reiche is from the University of Illinois.

SHORT SHAVINGS

J. E. Morton was crossing a corner lot at night, singing as he went, to reach his home W. Wayne St.

His song was interrupted suddenly, and so was he, when he walked into a cellar someone had dug that day in the middle of the lot.

Clara Thompson reports a farm he visited Sunday is growing cherries as an experiment.

One of the ladies of the party didn't recognize the berries and asked if they were good to eat. "You just took up a mess of those berries," said the farmer, "and you will find they beat prices for making apple sauce."

Fred M. Hall of the V. M. C. A. getting ready for an important social engagement, didn't like the hair cut he got at the first barber shop he visited. So he went to a second shop. "I didn't care for the second barber's work so much either," he said. But I had to let it go at that. I was beginning to run short of hair."

Bob Ashley, of the Board of Commerce sent an afternoon at home to help his wife clean house. He started with such enthusiasm at shaking a rug that he shook himself over a porch rail and landed in a flower bed. "Then," reports his wife, "he had to spend the rest of the afternoon reading a book to recover."

Bill Cress, of the Argonne drug store, feels sure that the young man who came in wanted something. He wonders what it was.

What the young man asked for was an ounce. He looked blank when Cress said, "An ounce of what? An ounce is a weight." Then he said, "That's what I want. An ounce of weight."

Miss Grace Jussie records the entrance of an adolescent youth in military uniform to his business office of Central high school.

He said he wished to speak to a certain girl student. He was told she was in class. "Call her, please," he said. "It is very important."

But the superintendent's secretary wouldn't. She said it was against the rules. The student in uniform turned away crest-fallen.

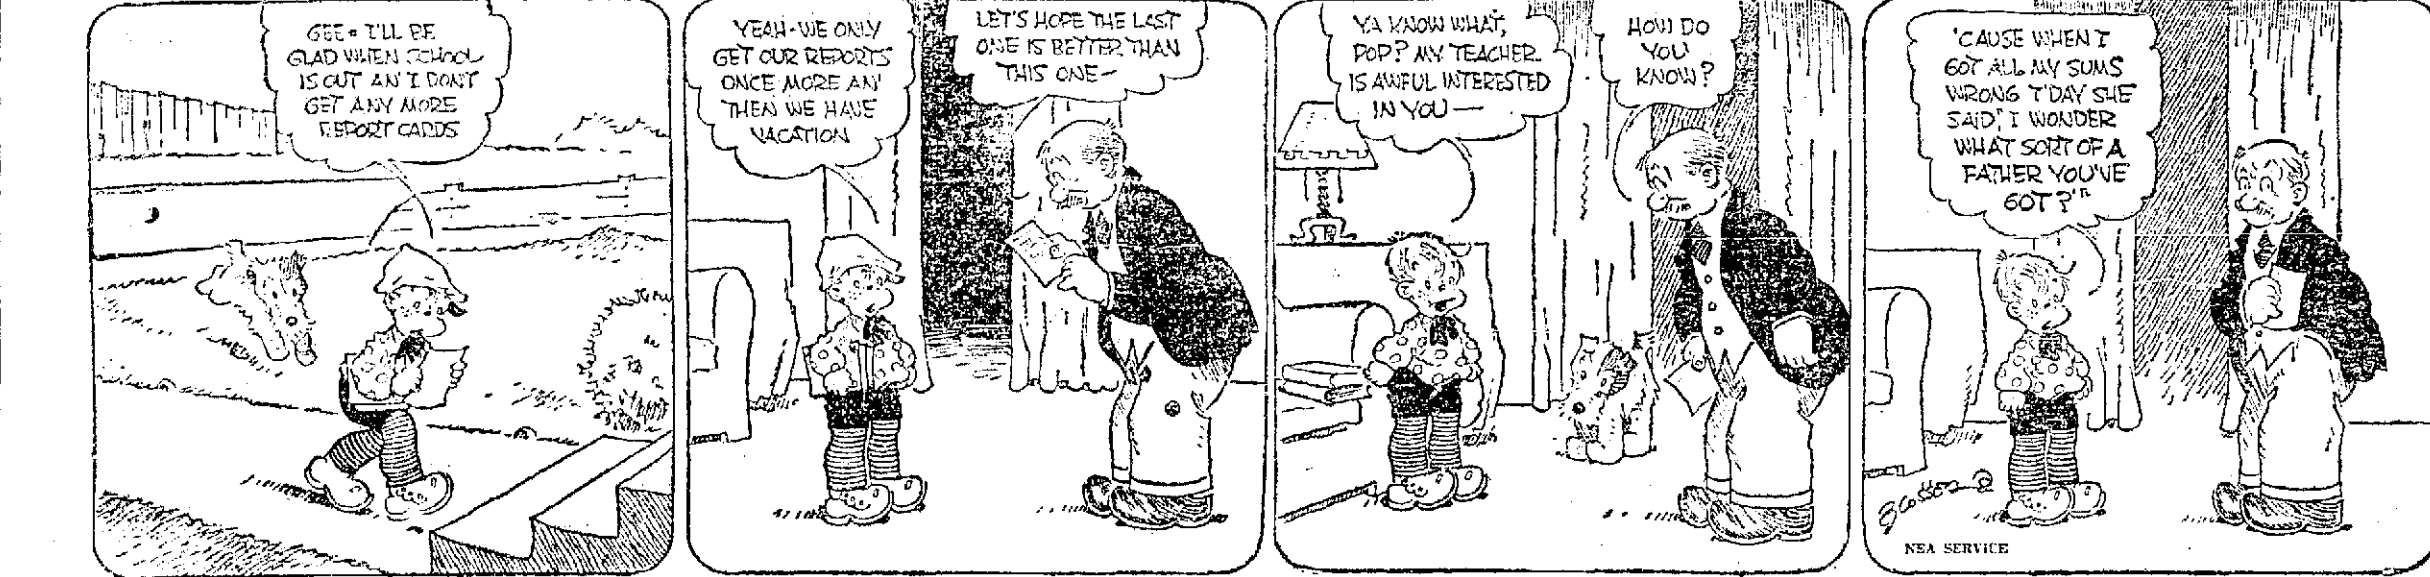

"I've been trying to see her for a week," he said. "All I can say is that you are spoiling a good romance with your old rules!"

W. L. Alexander was not disturbed when the news was brought to him that burglars were getting into his house.

"Let them be," he said. "Maybe they will drop something valuable."

Two tubs are all you need now!

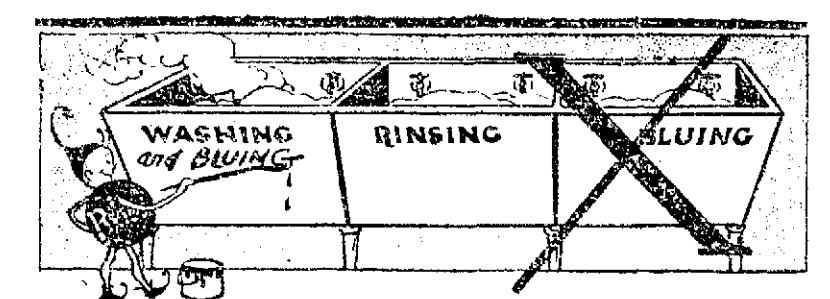

Pixies combine bluing and washing

THE invention of Pixies—the new Bluing Tablets—gives you for the first time a bluing which works beautifully right in the hot soapy water where you are washing your clothes.

One Pixie Tablet turns your soap suds blue. You wash as usual in these hot, blue suds and then rinse away the soap and the blue together.

No more separate bluing tub! And yet—clothes more exquisitely white than you ever saw them before!

Pixies give you a short cut from the rinsing water direct to the clothes line.

They blue the clothes during the washing
